Physical Description: 1 electronic document (5 p.) : digital, PDF file

Subjects (MeSH): Pregnancy, Ectopic

Subjects (LCSH): Ectopic pregnancy

Abstract: An ectopic pregnancy (also called a tubal pregnancy) is a pregnancy that happens outside of the uterus, usually in the fallopian tubes. This is a possible medical emergency and can lead to death if not treated. Symptoms, causes, risk factors, treatment, possible complications, and ways to lower your risk factors are provided. The French version of this pamphlet 1963, "Grossesse ectopique", is also available.
