Subjects (LCSH): Catheters

Specialty: Emergency

Abstract: This pamphlet explains what to expect if you are going home with a urinary catheter inserted. It explains what to do if your surgeon has told you to remove the catheter at home, how to keep the area clean, care instructions, nutrition and fluids, and important things to remember. A list of symptoms that need attention from your urologist or primary health care provider is listed.

Responsibility: Prepared by: Emergency Department, QEII

Pamphlet Number: 0297
