Specialty: Cancer Care

Abstract: This pamphlets answers common questions about receiving radiation therapy for breast cancer or Ductal Carcinoma in Situ (DCIS) of the breast. Topics include why radiation therapy is used to treat breast cancer or DCIS, what will happen when you come for your treatment planning, how long it will be until you start your radiation treatments, and how long your treatments will take. Information about side effects and support is also provided. A list of questions you may want to ask your health care team is included.

Responsibility: Prepared by: Nova Scotia Health Cancer Care Program; Approved by: Nova Scotia Cancer Patient Education Committee

Pamphlet Number: 4008
