Subjects (MeSH): Colonography, Computed Tomographic

Subjects (LCSH): Colon (Anatomy)--Tomography

Specialty: Diagnostic Imaging

Abstract: A virtual colonoscopy (VC) is a test used to check the inside lining of the colon for growths called polyps. It is also called a computerized tomography (CT) colonography or CTC. This pamphlet explains how to get ready for a CT VC, including instructions to make sure your bowel is properly cleaned for the test, and what will happen during the test.
