Subjects (MeSH): Depression
Depressive Disorder
Risk Factors

Subjects (LCSH): Depression, Mental - Handbooks, manuals, etc

Abstract: The authoritative reference on depression and mood disorders, this volume brings together the field's preeminent researchers. All aspects of unipolar and bipolar depression are addressed, from genetics, neurobiology, and social-contextual risk factors to the most effective approaches to assessment and clinical management.

Contributors review what is known about depression in specific populations, exploring developmental issues across the lifespan as well as gender and cultural variables. Effective psychosocial and biological treatments are described in detail. Each chapter offers a definitive statement of current theories, methods, and findings, and identifies key questions that remain to be answered.

Contents:	<p>Introduction / Ian H. Gotlib and Constance L. Hammen – Epidemiology of depression / Ronald C. Kessler ... [and 5 others] – Assessment of depression / Arthur M. Nezu ... [and 3 others] – Methodological issues in the study of depression / Rick E. Ingram, Greg J. Siegle, and Dana Steidtmann – Course of depression : persistence and recurrence / Daniel N. Klein and Anna E.S. Allmann – Comorbidity of unipolar depressive and anxiety disorders / Susan Mineka and Suzanne Vrshek-Schallhorn – Emotional functioning in depression / Jonathan Rottenberg and Lauren M. Bylsma – Depression and medical illness / Kenneth E. Freedland and Robert M. Carney – Features and course of bipolar disorder / Eric Youngstrom and Guillermo Perez Algorta – The genetics of mood disorders / Jennifer Y.F. Lau ... [and 3 others] – Neurobiological aspects of depression / Michael E. Thase, Chang-Gyu Hahn, and Olivier Berton – Neuroimaging approaches to the study of major depressive disorder : from regions to circuits / Diego A. Pizzagalli and Michael T. Treadway – Early adverse experiences and depression / Sheryl H. Goodman and Cara M. Lusby – Children of parents with depression / Ian H. Gotlib and Natalie L. Colich – Cognitive aspects of depression / Jutta Joormann and Kimberly Arditte – Depression and interpersonal processes / Constance L. Hammen and Josephine Shih – The social environment and depression : the roles of life stress / Scott M. Monroe, George M. Slavich, and Katholiki Georgiades – Risk factors for bipolar disorder / Sheri L. Johnson, Amy K. Cuellar, and Andrew D. Peckham – Understanding depression across cultural contexts / Yulia E. Chentsova-Dutton, Andrew G. Ryder, and Jeanne Tsai – Gender differences in depression / Lori M. Hilt and Susan Nolen-Hoeksema – Depression in children / Brandon E. Gibb – Depression in adolescents / Karen D. Rudolph and Megan Flynn – Depression in couples and families / Joanne Davila, Catherine B. Stroud, and Lisa R. Starr – Depression in later life : epidemiology, assessment, impact, and treatment / Dan G. Blazer and Celia F. Hybels – Depression and suicide / Matthew K. Nock ... [and 3 others] – Major depression can be prevented : implications for research and practice / Ricardo F. Muñoz ...
