Medical Marijuana

Subjects (LCSH): Cannabis
Marijuana—Therapeutic use

Specialty: Hospitals

Abstract: Il est interdit de fumer, de vapoter ou d'utiliser des produits parfumés dans les établissements de la Régie de la santé de la Nouvelle-Écosse. Comme la Régie est sans fumée, sans vapotage et sans parfum, seules l'huile et les gélules de cannabis peuvent être utilisées à l'hôpital. Cette brochure fournit de l'information sur l'utilisation du cannabis à l'hôpital et sur l'importance d'informer vos fournisseurs de soins de santé si vous faites usage de cannabis, quelle qu'en soit la raison.

This is a French translation of the English pamphlet 2000, "Questions About Using Cannabis in the Hospital". NSHA facilities are smoke-free, vape-free, and scent-free. Because NSHA is smoke-free, vape-free, and scent-free, only cannabis oil or capsules can be used in the hospital. This pamphlet provides information about using cannabis while in the hospital, as well as why it is important to tell your health care providers if you are using cannabis for any reason.
