Immobilization
Bone and Bones - injuries

Subjects (LCSH): Plaster casts
Bones--Wounds and injuries

Abstract: On y décrit de manière précise comment prendre soin des plâtres conventionnels et des plâtres en fibre de verre. On y trouve des instructions sur la manière de prendre soin de tous les autres types de plâtres. Le lecteur y apprendra comment garder son plâtre sec et ce qu'il doit faire en cas de problèmes.

This is a French translation of the English pamphlet 0117, "Taking Care of Your Cast". Some specific instructions for how to take care of fibreglass and plaster casts are described. Instructions for caring for all other types of casts are also provided. How to keep your cast dry and what to do if you have any problems are listed.

Responsibility: Prepared by: Emergency Department, QEII; Revised by: Orthopedics, NSHA
